

Scripting Task -Sudir Pandian

Task Description:

1. Create a shell script to print the HTTP error code of guvi.in & print, the success/failure message based on the error code response
2. Given a file, replace all occurrence of the word "give" with "learning" from 5th line till the end in only those lines that contain the word "welcome"

Techstacks needs to be used :

- Shell (AWS, Gitbash, WSL, Vbox)

How do I submit my work?

- Push all your work files to GitHub (Code & O/P screenshot images must).
- Submit your URLs in the portal.

Terms and Conditions?

- You agree to not share this confidential document with anyone.
- You agree to open-source your code (it may even look good on your profile!). Do not mention our company's name anywhere in the code.
- We will never use your source code under any circumstances for any commercial purposes; this is just a basic assessment task.

NOTE: Any violation of Terms and conditions is strictly prohibited. You are bound to adhere to it.

Step1:

Create a shell script to print the HTTP error code of guvi.in & print, the success/failure message based on the error code response

Solution:

```
sudir@docker:~/scripts$ ls
httpstatuscode.sh
sudir@docker:~/scripts$ cat httpstatuscode.sh
#!/bin/bash
echo "check http status code https://www.guvi.in"
statuscode=$(curl -s -o /dev/null -w "%{http code}" https://www.guvi.in)
if [ $statuscode -eq 200 ]; then
    echo "website is up (HTTP $statuscode)"
else
    echo "website is down. (HTTP $statuscode)"
fi

sudir@docker:~/scripts$ ./httpstatuscode.sh
check http status code https://www.guvi.in
website is up (HTTP 200)
sudir@docker:~/scripts$
```

Step2: Given a file, replace all occurrence of the word "give" with "learning" from 5th line till the end in only those lines that contain the word "welcome"

Solution

Input file

```
sudir@docker:~/scripts$ cat input.txt
Hi guvi team,
we are glad to welcome you.
line 3 is just fine, no changes.
Plase give your best today, line 4
welcome to the team! Make sure to give 100%.line 5
This is a message to welcome everyne who give their time.
Kindly welcome and give your support to the new joinees.
You must alwys give your best, it will not change because there is no "welcmoe"
welcome to this amazing opporitunity where you give and grow.
This line has nothing to change.
sudir@docker:~/scripts$
```

Output : scroll down

```
sudir@docker:~/scripts$ cat words.sh
#!/bin/bash
read -p "enter input file name: " file

# Run awk and redirect output to result.txt
awk 'NR < 5 { print; next } /welcome/ { gsub("give", "learning") } { print }' "$file" > result.txt

echo "output saved to result.txt"

sudir@docker:~/scripts$ touch input.txt
sudir@docker:~/scripts$ ./words.sh
enter input file name: input.txt
output saved to result.txt
sudir@docker:~/scripts$ ls
httpstatuscode.sh input.txt result.txt words.sh
sudir@docker:~/scripts$ cat result.txt
sudir@docker:~/scripts$ vi input.txt
sudir@docker:~/scripts$ ./words.sh
enter input file name: input.txt
output saved to result.txt
sudir@docker:~/scripts$ cat result.txt
Hi guvi team,
we are glad to welcome you.
